A Power full Earning Platform

www.apnicrypto.com

A **cryptocurrency** is a digital or Virtual **currency** that is secured by **cryptography**, which makes it nearly impossible to counterfeit or double-spend.

Many **cryptocurrencies** are decentralized networks based on **blockchain** technology—a distributed ledger enforced by a disparate network of computers.

What is Crypto Trading

Crypto Trading

CFDs trading are derivatives, which enable you to speculate on cryptocurrency price movements without taking ownership of the underlying coins. You can go long ('buy') if you think a cryptocurrency will rise in value, or short ('sell') if you think it will fall.

Both are leveraged products, meaning you only need to put up a small deposit – known as margin – to gain full exposure to the underlying market. Your profit or loss are still calculated according to the full size of your position, so leverage will magnify both profits and losses.

Buying and Selling Crypto Currency

Buying and Selling Crypto Currency with

APX Coin

When you buy cryptocurrencies via an exchange, you purchase the coins themselves. You'll need to create an exchange account, put up the full value of the asset to open a position, and store the cryptocurrency tokens in your own wallet until you're ready to sell.

Exchanges bring their own steep learning curve as you'll need to get to grips with the technology involved and learn how to make sense of the data. Many exchanges also have limits on how much you can deposit, while accounts can be very expensive to maintain.

About Us

- Multi National Company.
- Deals with purely mining and generation of CRYPTO Currency.
- Established To Facilitate Crypto Trading.

Vision & Mission

The Apni Crypto Coin aim to replenish the financial expectations of the masses, which have been largely undermined or overlooked by the moderator bodies who claimed to suffice the need of the people but somehow failed to deliver.

Apni Crypto Coin Exchange is established to facilitate Crypto Market trading, where buyers and sellers can buy, sell and trade Cryptocurrency.
